Building a Sustainable Future:
Green Recovery for Ukraine

The Platform for Action on the Green Recovery of Ukraine

To drive impactful change, the platform sets clear **goals** aimed at fostering green policies, mobilizing resources, and ensuring long-term environmental resilience, as well **key challenges** that must be overcome to achieve a sustainable and green recovery for Ukraine.

1

Goals

Promote a comprehensive and strategic green recovery in Ukraine

2

Ensure policy alignment with EU environmental and sustainability standards.

3

Develop and implement institutional reforms supporting environmental governance.

4

Facilitate financial mechanisms and private-public partnerships for green investments.

5

Raise awareness and mobilize stakeholders, including civil society and businesses, to actively participate in green recovery efforts.

Challenges

Financial & Infrastructure Needs

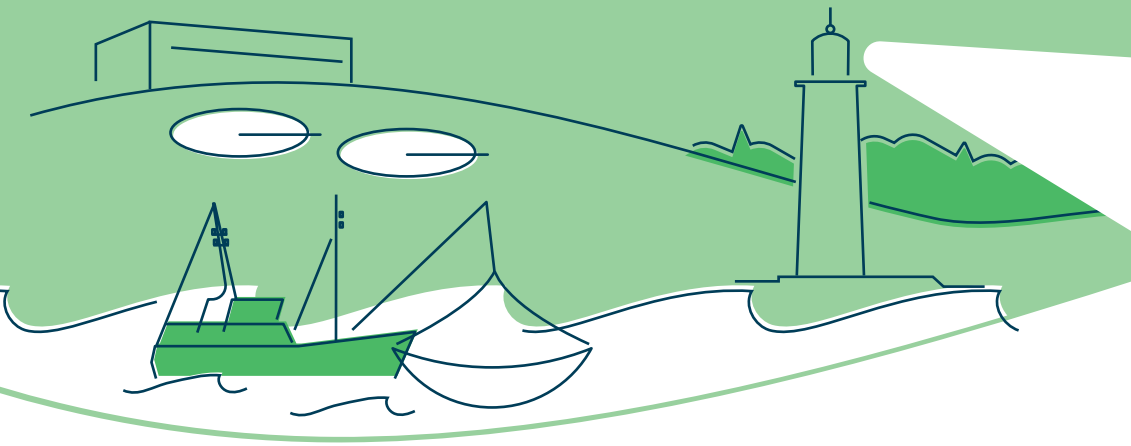

Regulatory Framework & Policy Implementation

Institutional Capacity

Financial Support Mechanisms

Public Awareness & Engagement

Technological Innovation

The Platform for Action on the Green Recovery of Ukraine is a high-level international initiative uniting the Ukrainian government, international organizations, and key stakeholders. Our mission is to facilitate a science-based, systematic, and coordinated approach to rebuilding Ukraine in a sustainable and environmentally responsible manner. By integrating green policies, financial mechanisms, and stakeholder collaboration, we aim to support Ukraine's transition to a climate-resilient and net-zero economy.
