### Georgia Climate Facts and Policy

#### Policies and Processes

- **National climate and energy plans**
- **Energy and transport policies**
- **Agriculture and forestry policies**
- **Land use policies**
- **Water management policies**
- **Solid waste management policies**
- **Policy integration and implementation mechanisms**

#### Climate Actions

- **Greenhouse gas emission reduction targets**
- **Renewable energy development**
- **Energy efficiency improvements**
- **Clean transport initiatives**
- **Climate-friendly agriculture practices**
- **Forest conservation and reforestation efforts**
- **Waste management strategies**
- **Water conservation and management initiatives**

#### Climate Finance

- **Domestic funding sources**
- **International funding sources**
- **Private sector investment**
- **Donor support**
- **Climate finance mechanisms**

### Impacts of Climate Change

<table>
<thead>
<tr>
<th>Impact Area</th>
<th>Impact Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Agriculture</td>
<td>Reduced yields due to water scarcity</td>
</tr>
<tr>
<td>Energy</td>
<td>Increased cost of energy production</td>
</tr>
<tr>
<td>Infrastructure</td>
<td>Damage due to extreme weather events</td>
</tr>
</tbody>
</table>

### Georgia Scorecard

- **National climate policy actions**
- **Greenhouse gas emission reduction targets**
- **Renewable energy development activities**
- **Energy efficiency improvements measures**
- **Clean transport initiatives progress**
- **Climate-friendly agriculture practices adoption**
- **Forest conservation and reforestation efforts progress**
- **Waste management strategies implementation**
- **Water conservation and management initiatives effectiveness**

### Climate Finance

- **Domestic funding sources**
- **International funding sources**
- **Private sector investment contributions**
- **Donor support contributions**
- **Climate finance mechanisms activated**

### Sources of information for the scorecard

- **National climate change and energy policies and strategies**
- **Renewable energy development plans**
- **Energy efficiency improvement initiatives**
- **Clean transport policy implementations**
- **Climate-friendly agriculture practices reports**
- **Forest conservation and reforestation projects**
- **Waste management strategies assessments**
- **Water conservation and management initiatives evaluations**
- **Domestic and international climate finance mechanisms**
- **Private sector investment contributions**
- **Donor support contributions reports**
- **Policy integration and implementation mechanisms effectiveness**
Russian Federation (English, Russian)
4. Inputs to meetings and workshop

Adaptation and mitigation priorities of Central Asia and cooperation with the EU in support of future climate action in the region. Leaflet for the side event at Paris COP 21
Regional overview poster for the coordination meeting of EU-supported climate projects, Brussels, February 2014
