TOLL ROAD

You can now go faster, but you have to pay for it. Take two steps forward.

Comfortable driving, improved safety and reduced travel time

Illegal use and export of fauna! Return them to the wild, and go down one level.

Climate change

Melting glaciers

Mountain ecosystems

Tunnel

Stop to build protection against natural disasters.

Natural disasters

Water sources

Forest planting

Do not throw garbage into the river! Pay a penalty! Go down one level.

OIL

Pipeline

Water pollution

Go back downstream! See what happens when you use too much water!

Stop to measure water use.

Water-saving technologies give you a two-step advantage

Efficient irrigation

Excessive irrigation

Water shortage

Depletion of water and ecosystems

Chemicals

CUSTOMS

Return! And improve the ecological quality of your produce.

Conversations and negotiations

Slow down, sit for tea, talk things over and skip a turn

Go quietly, get farther

Trade and flow of goods

Do not overload! Reduce weight and skip a turn.

Bazaars

Commercial containers

Greenery

Illegal logging! Go one level down and pay a penalty.

Stop for an industrial safety check!

Water purification! Now you can move faster!

Forests and tree plantings

Explosive mining works

Mineral resources

Boom!

Jump ahead two steps.

Smuggling rare animals

Public patrols

Environmental impact assessment

Get in the fast lane with the snow leopard!

Slow down! Watch for migrating species!

Predators

Pastures and grazing

To protect against predators, throw a magic number 3.

Do not grab the land in a nature reserve! Go back!

Nature reserve

Rare species

Panda

Red List

Honey

Bear

Mining

Natural resources protection

Respect wildlife!

Skip one turn!

CONGRATULATIONS! YOU HAVE COMPLETED YOUR ADVENTURES ON THE NEW SILK ROAD!

Finish

Air pollution

Emissions

CO_2

Industry

Pover generation

Stop here to reduse emissions and skip one turn!

Electric public transport scoots you three steps forward!

Energy-efficient oven

While you rethink your lifestyle and energy use, skip one turn!

Tourism

Kerosene lamp

LED

Traditional way of life

Transport

Emissions

CO_2

Renewable energy powers your way: move two steps ahead.

Dust and sand storms: pause here to plant trees to hold the soil in place

You might still see an old-time caravan...

...or trains carrying goods or fellow travelers

Environmentally conscious travelers

GET READY FOR ADVENTURES ON THE NEW SILK ROAD!

Start

The Belt and Road Initiative in Central Asia aims to revitalize the ancient Silk Road. Join a group of responsible travelers and discover nature s bounty along with environmental challenges and solutions as you go.
The traveler who finishes first wins the game! But all those who learn along the way are winners too.
○ When you land on a yellow circle, skip one turn while you think about how you would try to respond to the challenge. ○ Landing on a green circle gives you the advantage of jumping a few steps. ○ When you land on a red circle you are in a trouble, and you must either take a few steps back or drop down one whole level, depending on the circle.
